

MEET THE CHEESEMAKERS

PASA's consistent and driving vision has been to transform agriculture and food systems in Pennsylvania and beyond in a way that makes our farmers more viable, improves the land and restores the health and wellbeing of all our citizens.

In its third year, the PASA Summer FARM START has become a season of its own, with an inspired statewide series of events. Starting mid-May and ending mid-June, FARM START is our opportunity to shine a light on the significance of family farms and local food systems in Pennsylvania, and give the public a variety of ways to experience the beginning of farming season. We welcome you to learn more at www.pasafarming.org.
